MODEL 938 STAINLESS STEEL
\$26.00

1. Designed by Smith & Wesson with quality the first consideration.
2. Light Weight — All Steel 8½ oz. Aluminum with stainless steel lockwork 3¾ oz. All Stainless Steel Construction 8½ oz.
3. Heat treated internal parts for ruggedness and durability.
4. Welded chain and cheek construction for greater strength.
5. Lock has two safety devices to prevent picking — the key serves the dual purpose of setting the double locks or unlocking both handcuffs.
6. These handcuffs are made for the right and left hand, so that both may be clamped down onto the wrists of an offender with both keyholes toward the body and away from the hands.
7. No sharp corners to cut the wrists or cause wear on clothing or case.
8. Nor can they accidentally lock in your pocket, due to the swing-through design of the jaw.
9. Rotating jaw allows cuffs to be pressed smoothly onto the wrists of a prisoner; if necessary they can be speedily clamped on a violent offender.
10. Lock securely in 19 positions, fitting the smallest to the largest wrist.
11. A double locking feature is provided on each cuff. By depressing a plunger on the rim, the jaw is made secure against travel in either direction.
12. Naturally these handcuffs will be furnished in the well-known Smith & Wesson finishes famous for their fine appearance and durability.

BELLY AND LEAD CHAINS

For controlled transportation, here is a lead chain worthy of complete confidence.

Strict adherence to military and police specifications, all elements made of special heat-treated steel and nickel-plated. Chain is standard at 5-foot length with hand ring and a pair of Smith & Wesson Model 90 handcuffs. On special order, a single handcuff or optional chain length will be supplied. Important: All units of welded construction throughout; chains, rings and cuffs.

Model 830 1 Cuff - **\$23.00**
Model 820 2 Cuffs - **\$34.00**

Note: The above are standard and conventional restraints. We will be pleased to quote on custom requirements involving multiple unit transportation kits, special installation, etc. Please submit sketch.

Smith & Wesson engraving is produced by our own skilled artisans in three basic degrees of coverage and virtually any type of custom design desired, ranging from two or three initials, through duplicates of seals and fraternal emblems, to profuse engraving and inlaying with gold and platinum. All hand work to individual patterns and styles; prices and further information are available upon application to any Smith & Wesson distributor.

STATEMENT OF LIABILITY

These guns are classified as FIREARMS or DANGEROUS WEAPONS and are sold by us with the express understanding that we assume no liability for their re-sale or safe handling under local laws and regulations. Smith & Wesson assumes no responsibility for physical injury or property damage resulting from either intentional or accidental discharge, or for the function of any gun subjected to influences beyond their control, and will honor no claims which may result from careless handling, unauthorized adjustments, defective or improper ammunition, corrosion or neglect. For your protection, examine your gun carefully at the time of purchase, then fill out and mail to us promptly the registration card bearing your gun's serial number which accompanies all new guns.

WARRANTY

The company will replace or adjust to its commercial standard any gun or part thereof returned prepaid to the factory and found by us to be defective, in either material or workmanship. Such service will be made free of charge for one year from date of registered purchase. This warranty and statement of liability supersedes all previous warranties and commitments. April 15, 1955

Prices are effective 3-1-66 subject to change without notice. Prices shown include Federal Excise Tax where applicable.
